Continuation of 11. does NOT place the application in condition for allowance because: In re page pages 12 - 13, applicants disclose that Lane in view of Yoo does not disclose at least modifying the PCR values based on a scale factor, which is based on expected time/actual time or generating an error signal based on a filtered PTS value, as is recited in the claims. In response, the examiner respectfully disagrees. Lane clearly discloses modifying the PCR values (see column 4, lines 63) based on a scaling factor which is based on an expected time/actual time (see column 13, lines 40 - 60). Applicants also discloses that Yoo does not disclose any teaching regarding the filtered video presentation time stamps (PTS). In response the examiner respectfully disagrees. Column 5, lines 34 - 51 clearly discloses filtering the transport stream packets.
